My Experience at the English Studio was excellent. The staff were kind and helpful. The environment with the teachers, with the staff and other students was very great. When I arrived I didn't understand my teachers but now I can have a fluent conversation. The school creates a good community with the students, where you can practise your English, make new friends and have a good time. The course gave me the opportunity to have meetings with companies in London about sustainability and this was a very big step for me. I had the opportunity not only to improve my English but learn about a new culture, new people and different points of view.
