Be inspired

The English Studio story is best told by our students

I believe my English has improved gradually since starting the class at The English Studio and I don't feel any pressure when I listen to English announcements, while taking the tube and in any real conversations or listening to English podcasts.

Tae Min Park, South Korea

Tae Min came to the UK for a professional English course from Busan in South Korea. English is an everyday occurrence in his international-facing company role. During his course, he went from revising basic grammar and vocabulary to taking pleasure from studying colloquial English, pronunciation and connected speech.
